November 14th, 2006

Senator the Honourable Ian Campbell,  
Minister for the Environment and Heritage,  
GPO Box B58,  
Perth. W.A. 6838

Dear Minister,

#### BURRUP PENINSULA

Thank you for your long awaited reply to my letter dated September 6<sup>th</sup>, 2006. This unfortunate delay has made it more straight forward for those planning environmental assaults on this unique site.

Mr Campbell, sir, your letter states "After considering the Council's assessments, as well as the substantial information provided during period, I have decided to seek further public comment..."

Crikey mate! How much more bloody information do you want? You have had ship loads of data sent to you by the public. You probably have more information than anybody else in Australia.

Mr Campbell, why are you procrastinating? Was your recent letter to me (and I presume to others) just meaningless semantics designed to frustrate the thousands and thousands of Burrup supporters in the hope that we might give up? We won't!

Please make your decision now. As Minister for the Environment and Heritage, there is only one decision that you can make and you have scuds of data to substantiate your decision.

The Yaburara people and their lands have been punished enough. There is a book called the "Flying Foam Massacre" which would be good for you to read if you are intending to look for more public input. I will send you a copy, free of charge, if you are serious about more public input. Just ask.

Yours faithfully,

Michael R Dyson.
