

# Environment Report Card

Name: Peter Garrett

Years: 3

Group: Australian Labor Party

| Subject                                   | Grade | Comments  |
|---|-------|---|
| Burrup Peninsula                          | F     | Poor attendance record and lack of participation    |
| Barrow Island                             | F     | Was not paying attention in class                   |
| Tasmanian pulp mill                       | F     | Missed an easy opportunity to get an A              |
| Coal-fired power stations                 | F     | Is overly influenced by his classmates              |
| Greenhouse gas emission reduction targets | D -   | Leaves all the work until the last minute           |
| Supporting renewable energy               | C-    | Peter fails to reach his potential                  |
| Uranium Mining                            | F     | Has allowed himself to be bullied by the other kids |

General comment:

His promising entrance exam results have not translated into good class work. I hope he will try harder next term.

Signed Mr Ludlam

Principal Greens Candidate for the Senate in WA
